

Sharing mobility: competing or completing public transport in cities?

Gepubliceerd 31-aug-21 23:25 door [Caroline De Cristofaro](#)

Is sharing mobility competing or completing public transport in cities? New essay with many practical examples with Monica van Luven, Stavros Xanthopoulos and assistant prof Niels van Oort, from the Smart Public Transport Lab of Delft University of Technology. The essay was rated by chairman Saskia Kluit and director Freek Bos of ROVER, as the best paper from a traveler's perspective.
