Tour de Force

Tour de Force is a powerful collaboration between governments, market parties, social organisations, knowledge institutes and platforms that are committed to a stronger bicycle policy in the Netherlands. The objective of Tour de Force is ambitious: 20% more bicycle kilometers in 2027 compared to 2017. After the success of the 1st stage, with the National Agenda Bicycle, we are now gearing up. It is now time for the 2nd stage: the Scale Jump Bicycle!
