

Submit your innovative product or service for the RailTech Innovation Awards 2022

Gepubliceerd 14-jan-22 10:00 door [Caroline De Cristofaro](#)

The RailTech Innovations Awards are back! At RailTech Europe 2022 we will award the best innovations in the industry. Would you like to be the winner of the RailTech Innovation Award this year? And do you have a new product or service that contributes in an innovative way to the railway sector? Then submit your application before 10 February!

Categories

At the RailTech Innovation Awards 2022, the best innovations will be awarded in a total of three categories:

- Infrastructure
- Digitalisation
- Technology & Design

In each category, an extra **start-up innovation award** will be granted for the best start-up. Also, all nominees in the three categories will get the chance to win the **audience choice award**. This will be the best innovative product or service that is chosen by the industry.

Jury members

The submissions will be judged by a professional jury that consists of experts in the industry. The jury members will be:

- Prof. dr. ir. Rolf Dollevoet, ProRail
- Dr. Matthias Landgraf, Technical University of Graz
- Enno Wiebe, CER
- Claudia Falkinger, Hawkinger
- Diego Galar, Technical University of Lulea

RailTech Europe 2022

On 8-10 March the European railway industry will meet at RailTech Europe 2022 for the first

physical rail event of 2022! Over 200 exhibitors from around Europe will join us in Utrecht to showcase the latest technologies in the rail industry. A three-day high-level conference will bring together expert speakers to share their knowledge on topics such as digital rail, sustainability and international long-distance train connections. The registration for both exhibition and conference are open, so [register today and join us!](#)
