Wall updates are a simple and effective way to communicate with people and groups.

You can access your personal wall by either clicking on My Account at the top right of the DMI webpage or Activity Stream located on the left hand side of your screen if you're already in the My Account area. Similarly to access a Community wall, click to the Community and then (if the Activity stream is not the landing page) click to the Activity stream from the left menu.

The screenshot displays the TransportLAB Community Platform interface. At the top, there is a navigation bar with various links including 'My Vellance', 'Vellance Control Panel', 'Informer', 'Axero support', 'website ImpactHUB', 'ImpactHUB Net', 'Impact Hub Adam', 'CRM', 'LOGISA | Website', and 'LOGISA Supply Chain'. Below this is a search bar and a 'My Account' link circled in red. The main content area is divided into three columns. The left column contains a user profile for 'Olive Sawe' and a navigation menu with 'Activity Stream' circled in red. The middle column shows a post by 'Folkert Bloembergen' with a tip about incident management, a comment box, and a list of community members who have joined. The right column contains a 'Welcome' message, an 'Activity Ticker' with recent updates, an 'Online Now' section, and an 'Invite People' section with an 'Invite' button.

Updates

To share an update click inside the "What's on your mind?" box at the top of your wall. When you are ready to publish click the "Post" button. You can remove your post at anytime by clicking on "Delete" as long as you have permission to do so.

The screenshot shows the TransportLAB community platform interface. At the top, there is a navigation bar with the TransportLAB logo, a search bar, and links for Home, My Account, Browse, Create, and Communities. Below the navigation bar, the user profile of Olive Sawe is visible. The main content area shows a post creation form with a text input field containing "Reportage Brandpunt over incidentmanagement", which is circled in red. Below the form is a "Post" button. The post itself is by Folkert Bloembergen and is titled "Reportage Brandpunt over incidentmanagement". The text of the post discusses the importance of incident management and mentions a reportage on NPO 2. Below the post is a comment section with a "Write a comment..." input field. On the right side, there is a "Welcome" section, an "Activity Ticker" showing recent updates by Olive Sawe, and an "Online Now" section.
